

DogDay Charters

Was created in 1998 by Captain Fouad Sultan in Naples, Florida, owning and running his boats out of Guanacaste, Costa Rica for six years.

Now DogDayCharters is based in Salinas, Ecuador. A short direct flight from Miami to Guayaquil, Ecuador.

Our goal is to offer our guests a worry free vacation, full of excitement and plenty of photo opportunities to take back home.

Sport Fishing

The Ecuatorian Coast offers some of the most spectacular fishing opportunities rivaled to none. Calm conditions and different species are caught close to shore. The Humbolt Current, good weather, plenty of bait makes the fish very cooperative and offers some spectacular fishing frenzies. Our day usually starts at five a.m. with breakfast and lunch aboard, soft drinks/water beer all complementary.

After a day of fishing your catch can be prepared at one of many fine local restaurants in and around Salinas.

Whale Watching

The Whales come from the Antarctic, to the Ecuatorian waters traveling around 5000 miles. Salinas has an advantage that is the whale watching is done so close to the coast. Normally Whale Watching is done as close as a mile or two from the coast.

Sunset Cruises

Just let us know of your particular needs.
